

BACKBEAT FIT AND PLT: HOW TO RESET

To reset your BackBeat Fit And PLT:

1. Press the power button for about 5-6 seconds until the indicator light starts flashing red and blue.
2. Press the volume up and volume down buttons at the same time. The light flashes rapidly 3 times, and then the headset turns off.
3. When you turn on the headset, it automatically goes into pairing mode (flashing red and blue) so that you can pair it with your phone or other device.
